CHAIN FLUX

AXIOM DRIVELINE · CHAIN LUBRICANT

AX-SDS-01
Revision 0.1
29 Oct 2026

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier	Chain Flux (AXIOM DRIVELINE)
1.2 Relevant identified uses	Chain Lubricant for bicycles. Uses advised against: to be confirmed.
1.3 Supplier	[Registered company name] [Registered UK address] [trade@your-domain]
1.4 Emergency telephone	[24h emergency number — required before SDS approval]

SECTION 2: Hazards identification

2.1 Classification (GB CLP)	Classification pending
2.2 Label elements	Pending classification
2.3 Other hazards	Pending assessment

SECTION 3: Composition/information on ingredients

Formulation target	Low-volatility, plant-derived lubricating base
Hazardous components	Pending. Not finalised.

SECTION 4: First-aid measures

To be completed by a competent person following formulation verification.

SECTION 5: Firefighting measures

To be completed by a competent person following formulation verification.

SECTION 6: Accidental release measures

To be completed by a competent person following formulation verification.

SECTION 7: Handling and storage

To be completed by a competent person following formulation verification.

SECTION 8: Exposure controls/personal protection

To be completed by a competent person following formulation verification.

SECTION 9: Physical and chemical properties

To be completed by a competent person following formulation verification.

SECTION 10: Stability and reactivity

To be completed by a competent person following formulation verification.

SECTION 11: Toxicological information

To be completed by a competent person following formulation verification.

SECTION 12: Ecological information

To be completed by a competent person following formulation verification.

SECTION 13: Disposal considerations

To be completed by a competent person following formulation verification.

SECTION 14: Transport information

ADR	Transport classification pending
IMDG	Transport classification pending
IATA	Transport classification pending
Shipping	**Not approved for shipping**

SECTION 15: Regulatory information

To be completed by a competent person following formulation verification.

SECTION 16: Other information

Revision	0.1 (provisional draft), 29 Oct 2026
Revision history	0.1: first draft structure. No verified data.
